BURROWS TO LORIMER'S AID

Senator Insists Evidence Does Not Warrant Expulsion

KEEP WITH LAW, HE SAYS

Assails Charles A. White—Declares That He Is a False Witness or Dead to All Sense of Honor or Shame.

Washington, Jan. 19.—Senator Burrows of Michigan, chairman of the Senate committee on privileges and elections, took the floor in the Senate yesterday afternoon to defend the majority report of the committee exonerating Senator Lorimer of Illinois from the charge of bribery and defending his title to his seat. This was the first effort of any member of the committee who signed the majority report to defend the committee's action, and the speech of Mr. Burrows was listened to with close attention. It was a discussion of the evidence and the law, and an attempt to show that the course of the committee was justified. It was also a plea for calm judgment.

While there have been a number of speeches against Lorimer heretofore, it is expected that the defense by Burrows will mark the real beginning of the battle for and against Lorimer. Many senators have speeches prepared, which they are anxious to deliver, and an animated debate is now likely.

Senator Burrows began his speech by allusion to the criticism passed upon the majority report. He said this made it incumbent on him as chairman of the committee to defend that report. In summing up the evidence, he insisted it was not adequate to warrant the expulsion of Lorimer. He urged the Senate to keep within the law and not be led off by the clamor or public feeling. He said:

"We must keep within the law. If we go beyond it, we become enemies of order and public right—be our purpose bad or good. We are not to do evil that good may come. We perform a grave—nay, a solemn—judicial duty. We are to steel our hearts against sympathy and emotion on the one side, and be deaf to applause and clamor on the other. We are to hold with unflinching hand the exact scales, knowing nothing, hearing nothing, seeing nothing, but the law and the evidence. We are not to make the law, but only to administer it; we are so sworn."

"There is absolutely no proof in this case, direct or indirect, from which a legitimate inference could be drawn that a single member of the general assembly was corruptly influenced to vote for Mr. Lorimer."

After summarizing the testimony of witnesses White, Link, Beckmeyer and Hoistland, the senator declared that "it is obvious that there is nothing in the statements of all of them taken together, which could justify a conclusion that testimony as to bribery is true, or could be relied upon in a matter of even minor importance."

He closed with a further appeal to the case within the safeguards of the constitution.

"ALDRICH IDEA BEST SINCE HAMILTON"

A. Platt Andrew Praises the Senator's Monetary Legislation Plan.

Washington, Jan. 19.—The Aldrich plan for monetary legislation marks "the most profound and comprehensive attempt at constructive financial legislation which the country has witnessed since the time of Hamilton," said A. Platt Andrew, assistant secretary of the treasury, yesterday, in addressing the business men's monetary conference held by the national board of trade. It was the first discussion of the Aldrich plan.

Mr. Andrew defined six existing deficiencies in the present monetary system and explained the remedies suggested in the Aldrich plan. Speaking of the proposed reserve association, Mr. Andrew said:

"With such an institution in existence it is hard to see how solvent banks could ever again be forced to suspend, or how our domestic exchanges could ever again cease to operate."

"The Aldrich plan," continued Mr. Andrew, "embodies most of the features which are common to the banking systems of other important countries and which we have hitherto lacked."

He said the precautionary control by any influence were effectual.

DEMOCRATS PLAN CAUCUS.

They Will Prepare for Action in Congress; All Is Harmony.

Washington, Jan. 19.—Plans for the Democratic caucus to be held tonight

The Important Problem

confronting anyone in need of a laxative is not a question of a single action only, but of permanently beneficial effects, which will follow proper efforts to live in a healthful way, with the assistance of Syrup of Figs and Elixir of Senna, whenever it is required, as it cleanses the system gently yet promptly, without irritation and will therefore always have the preference of all who wish the best of family laxatives.

The combination has the approval of physicians because it is known to be truly beneficial, and because it has given satisfaction to the millions of well-informed families who have used it for many years past.

To get its beneficial effects, always buy the genuine manufactured by the California Fig Syrup Co. only.

A GREAT CHANCE FOR BOYS AND YOUNG MEN

Young chaps going to school, and young men out of school have a great opportunity here at this Quick

Money Sale to save a lot of money on clothes by laying in a supply while these low prices last. Good things, too, for older men in this list--and lots more in the store.

SURELY BREAKS THE MOST SEVERE COLD

Will Overcome All Distress from a Bad Cold or the Grippe in Just a Few Hours.

The most severe cold will be broken, and all grippe misery ended after taking a dose of Pape's Cold Compound every two hours until three consecutive doses are taken.

You will distinctly feel all the disagreeable symptoms leaving after the very first dose.

The most miserable neuralgia pains, headache, dullness, head and nose stuffed up, feverishness, sneezing, running of the nose, sore throat, mucous catarrhs, discharges, soreness, stiffness, rheumatism pains and other distress vanishes.

Pape's Cold Compound is the result of three years' research at a cost of more than fifty thousand dollars, and contains no quinine, which we have conclusively demonstrated is not effective in the treatment of colds or grippe.

Take this harmless compound as directed, with the knowledge that there is no other medicine, made anywhere else in the world, which will cure your cold or end grippe misery as promptly and without any other assistance or bad after-effects as a 25-cent package of Pape's Cold Compound, which any druggist in the world can supply.

have been perfected and it is already appearing that there will be harmony all along the line. No changes from the programme previously proposed are contemplated by the leaders to-day, nor do they except that the backers of a motion to postpone the holding of the caucus until December will muster sufficient strength to carry their point.

Representative Henry D. Clayton of Alabama will call the caucus to order in his capacity as chairman of the minority. It is then expected that Representative James Hay of Virginia will be elected permanent chairman. He was one of the earliest to favor a committee of committees. Then Champ Clark of Missouri will be elected speaker of the next House and, after discussion, the committee on ways and means will be created, composed of the fourteen congressmen named previously in these dispatches. This committee will be constituted committee on committee. Perfunctory resolutions will be passed, and the caucus will be over. There will

be flurries of opposition, of course, but these are not serious enough to give the leaders any concern. Harmony will prevail at the end of the meeting, they say to-day.

ATTACK WAS UNPROVOKED.

American Vice Consul Set Upon by a Mob.

Victoria, B. C., Jan. 19.—Details of the assault on United States Vice Consul Williamson at Dalny, Manchuria, by Japanese on Dec. 23, briefly reported to Washington by cable, were received on Tuesday night by the steamer Hallamshire.

Mr. Williamson, according to advices received, went to inspect the fish market recently opened by Japanese at Dalny and was on a high stand watching an auction sale, when a number of Japanese and Chinese fish mongers pushed into the market. Mr. Williamson was almost pushed off the stand.

He was straightening himself up in the rush, when several Japanese, including the secretary and a clerk of the market, began scolding him for being there, at the same time pushing their way toward him and seizing him by the arms and pulling him from the stand.

Mr. Williamson asked why it was wrong for him to watch the sale, saying he would leave after they gave him a reason.

Then the Japanese rushed at him. He pushed one of them in self defense and the crowd rushed at him, both Japanese and Chinese attacking him. A Japanese thrust at him with a bamboo pole, wounding him on the chin. Another, it is said, threw a block of ice which struck him on the head and cut him severely.

The victim made his way to the police, half a block distant, and some Japanese policemen accompanied him back to the market, where the two Japanese who first attacked him were found. The consul asked that they be taken to the police station. According to the version received here the police did not take them.

Mr. Williamson made a protest to the Japanese administrator at Dalny and sent telegrams and letters to Washington, reporting the assault.

Several Japanese newspapers comment on the affair, as well as on an attack made about the same time on a Miss Hayes, an American at Yokohama, by a Japanese newspaper reporter, who, it is alleged, struck her violently about the head several times without apparent cause.

Regarding the attack on Vice Consul Williamson, the Kobe Herald says: "From messages received by the Osaka Mainichi and Asahi, it is evident no official statement will be made at present. The accounts received by Japanese papers are, however, sufficient to prevent the matter being allowed to rest, and prompt measures should be taken by the authorities, to bring the assailants to justice."

LYNCH VICTIM IS STILL ALIVE.

Kentucky Mob Learns That One of the Three Escaped Rope Fate.

Shelbyville, Ky., Jan. 19.—That the members of the mob who lynched three negroes here last Sunday morning are in a serious predicament was known yesterday, when it was ascertained that James West, one of the three negroes who was taken from the jail but escaped, is well and in hiding near the city.

A mob was formed Tuesday night, it is said to look for the negro, but he could not be found. The governor said that he would send the entire militia to Shelbyville to protect West if he can be found. The governor is determined to do whatever lies in his power to protect the negro and bring the members of the mob to justice.

There is a feeling of uneasiness here. If West can be found an attempt will be made to lynch him, as all of the members realize the seriousness of their position if the negro tells his story. West recognized most of the members of the mob, according to the story told by his brother, who saw West a few hours after his escape.

up, try to induce excessive passive motion. Push the thigh against the hip bone, which perhaps will indicate pain when in motion. The limited action of the hip joint on the same side and the marked dropping and rising of the hip on the other side, will indicate to us the trouble. The leg, as in shoulder lameness, will be carried forward rather with a circular motion. Turning around is also difficult and helps in diagnosing the trouble. His lameness is rather more serious than shoulder lameness because of the tendency of permanent disability, exostosis and arthritis. What follows often resists every kind of treatment.

Absolute and extended rest is imperative; unless this is thoroughly adopted and carried out, other aids are absolutely useless. First, then, let us give the required rest, cold water showers, alternating with hot fomentations, cover with hot wet blankets, repeating frequently, at length, mild, soothing liniment, followed, when the inflammation has subsided, by stimulating liniments, blisters, etc., which can be repeated several times to advantage; but don't overlook the matter of rest.

CURB.

The bulging backwards of the posterior portion of the back joint, the line which should be straight in a normal condition. Curbs result from heavy pulling, jumping and slipping and similar accidents, malformation, etc. At first a swelling more or less diffuse, heat and soreness, with lameness of a permanent nature. Later the swelling will be well defined, more noticeable in every way, the curved line easily detected, readily felt with the fingers. The lameness may now vary in degree. Possibly the animal will not show the lameness now at all. The hock affected with a curb becomes a source of danger, for it is weak and cannot withstand the strain and work of a normal hock. It is well to begin at first indication of trouble to make hot fomentations, cold showers, friction and liniment. If, however, the hock is well defined and does not yield to these forms of treatment, get to work with more severe measures. Apply a good absorbent, iodine, fuming, rest and repeating the blister will do much to overcome the ordinary curb.

HIP LAMENESS

Dr. A. C. Daniels

This is brought about in the same manner as lameness of the shoulder and is followed by the same results, and as much obscures lameness as it does in determining hip lameness as shoulder lameness. First, however, let us examine critically the outline of the joint and immediate region for any difference in size or symmetry of the parts, any prominence or rotundity, comparing both sides. We may find one side warmer, fuller, seemingly more developed. Take the leg at the lower part and, lifting it

up, try to induce excessive passive motion. Push the thigh against the hip bone, which perhaps will indicate pain when in motion. LODGE GRATEFUL

And He Says So In a Statement at Washington.

Washington, Jan. 19.—Senator Lodge, on receipt of the news of his re-election, issued a statement in which he expressed his gratitude and deep appreciation of the honor conferred on him by the legislature and people of Massachusetts.

The statement in part reads: "I am deeply grateful to my friends, both in the legislature and outside it, who have labored for me with loyalty and devotion and a complete disinterestedness which I have never seen equalled. I cannot find words adequate to express my sense of gratitude for such devotion and loyalty. I can only hope that my friends who have so labored for me will all realize what I feel, how heartfelt are my thanks, and I trust that I may be able to repay them by service to the country and to the state which they will deem mete of a senator from Massachusetts."

IOWA'S VOTE.

Many Candidates Receive Recognition In That State.

Des Moines, Iowa, Jan. 19.—The joint ballot on senator in the Iowa legislature yesterday resulted as follows: Young 32, Kenyon 22, Funk 21, Ryers 14, Feely 7, Franke 2, Porter, Democrat, 83.

STONE IN BLADDER REMOVED WITHOUT SURGICAL OPERATION

In the Spring of 1904, I was confined to my bed with kidney trouble and thought that I would never recover. I took a lot of medicine but did not realize any benefit from anything. I finally saw Dr. Kilmer's Swamp-Root advertisement and sent for a sample bottle and thought the sample bottle helped me, so I bought more of the medicine from Dr. Kilmer, and after using a few bottles discharged a very large stone from my bladder. After passing this stone my health was very much improved and I have been able to continue my business without any serious sickness.

J. L. KNOWLES, Headland, Ala.

Personally appeared before me this 8th day of September, 1909, J. Loftus Knowles, who subscribed the above statement and made oath that the same is true in substance and in fact.

J. W. WHIDON, Notary Public.

Prove What Swamp-Root Will Do For You

Send to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. It will convince anyone. You will also receive a booklet of valuable information, telling all about the kidneys and bladder.

When writing, be sure and mention this paper. Regular 50-cent and \$1.00 size bottles for sale at all drug stores.

TO CURE A COLD IN ONE DAY

take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box. 25c.

MISS LA FOLLETTE ON STAGE.

Daughter of Senator Makes Her Debut in New York.

New York, Jan. 19.—Miss Fola LaFollette, daughter of United States Senator Robert M. LaFollette of Wisconsin, made her debut as a leading woman in the Garrick theatre here in Percy Mackaye's symbolic play, "The Scarecrow." Miss LaFollette had a strong part in support of Edmund Breese. The play is an allegory of colonial New England days, with the fantastic effects of witchcraft and diabolism woven into it. The story it seeks to tell is that even in depraved human beings souls are awakened when the being realize the hideousness of their lives.
